TEUTONS PUSH ON RAPIDLY AFTER TAKING CRAIOVA

Berlin Says Capture of City Has Cut Off Only Line of Retreat of Rumanian Force at Orsova - Ground Gained in Alt Valley.

Victory of More Importance Than Breaking of Enemy's Lines in Dobrudja, Overseas News Agency Says.

London Newspapers Admit KINDNESS TO STREET URCHIN Rumanian Situation Is Grave - Fear Southwest Wallachia Will Be Lost.

BERLIN, Nov. 22, by wireless to Say villa-The Austro-German invasion of ville.—The Austro-German invasion of Rumania is proceeding unchecked, says hey at Broadway and St. Charles street today's announcement from the War Of-Rumanian attacks were defeated and ground was gained on the Rothen thurm Pass road and in the Alt Valley.

The defeat of the Rumanians in Wallachia, enabling the Austro-German forces to reach the railroad from Orsova to Craiova was of even more importance breaking of the Rumanian line in Dobrudja, writes the military critic of the Overseas News Agency. With the battle of Tirgujiuliz on Nov. 18, he says, the Rumanian campaign entered on a

Pressure Is Increased.
"In October there was a violent struggle in Northern Rumania for the key poons in the Transylvanian mountains but after the passes were forced the pressure of the central Powers increased from day to day with an extension of the front all through the Moldavian Mountains and the Wallachian Carpathians as far as Orsova."

After describing the Austro-German advance through the mountain passes, the military critic continues:

manians offered the most te vacious resistance and made violen counter-attacks especially in Predeal Pass north af Campulung, in Rothenthurm Pass and in the Jiul Valley. But all these desperate efforts merely cost them the greatest sacrifices, withou bringing them even local gains, and the advance of the Germans and Austrians was more successful every day. On Nov. 18 the Rumanian defense in the Jiul Valley gave way and the Rumanians were decisively, suffering extraor dinarily heavy losses.

"The victorious troops of the central Powers followed up their successes at once and notwithstanding the immens difficulties of the snow-covered roads, which were hardly practicable for marching and were impassable for cars, they broke into the Wallachian Plain. A Rumanian counter advance from the

manian civilian population, excited by the severity of the defeat, took part the fighting. The troops frequently were fired upon from ambush. "The railroad line between Orsova and

Craiova having been cut, the Rumanian nits fighting at Orsova have lost their only line of retreat.

"The German army command reports that from Nov. 1 until Nov. 18, 189 officers, 19,388 men, 26 cannon and 72 maguns were captured. In view of the gigantic Rumanian losses in Dol idja and Transylvania this is a heavy blow. By comparison the breaking of the enemy's line in Wallachia dwindles into insignificance."

The new ruler of Austria and his consort were wedded in 1911, when the bride was 23 years old. It was a true love match, and met with approval from the late Emperor, who was always fond of the young Archduke.

Although personally popular, the Arch-duke Charles Francis Joseph never has been regarded as powerful, and it is no secret that those at the head of the central Powers hoped that the aged Francis-Joseph might live a few years

The young man, who will assume the throne, is well liked and has a fair reputation as a soldier. He was trained for graduation from a Catholic seminary conducted by Benedictine monks, and has seen service with all the branches of the army. On the Eastern front he has held some important commands. He diplomacy, his political leanings are not very well known, and altogether his accession is likely to cause much disquiet ude among the leaders who are conducting the war affairs of the central Powers. There is no question that polyglot Austria, with 14 different nationalities "united" theoretically under the one crown, has been the weak member of the Teutonic alliance. It has frequently been said in Germany that the Germans their neck-meaning Austria. But the late Emperor managed to suppress internecine dissension in his kingdom. Austria has a separate Premier and during the war, as was shown by the recent assassination of the Austrian

I tried nearly every known remedy, but nothing me any relief until one day I met the Station Agent at Willisville Ill., and he said he had been a sufferer for years, but had been cured by Vinol. I at once commenced to take it, and the result is my cough is gone, my appetite has improved and I can lie down and sleep all night, and my experience leads me to believe that Vinol is a certain remedy for bronchial asthma." John H. Condell, Tilden, Ill.

The reason that cough syrups fail in such cases is because they are paliative only, while Vinol removes the cause, being a constitutional remedy in which are combined beef and cod liver peptones, iron and manganese peptonates and glycerophos-phates. BRUNSWICK PHONOGRAPH now presented to the people ot St. Louis and vicinity

What we now offer brings a new musical epoch. New artistic standards are attained, greater pleasures.

The Brunswick places the whole world of music at your commandwithout restrictions.

With the perfection of this super-phonograph is announced an international alliance with Pathe. This opens up a new and richer musical world. Pathe records—with Europe's greatest favorites—afford unlimited treats.

This combination, we believe, is of first importance to all music lovers. The Brunswick offers many costly extras at tempting prices—below the usual.

For years the House of Brunswick has been building phonograph cabinets for others until it was ready to announce a final type phonograph.

Until this announcement of the Brunswick, each maker has

limited his machine to a certain type of records, to foster One machine was limited to needle records-another to a

jewel point. Each excluded the other. The wonderful Pathe records were barred. The Brunswick rectifies these irksome conditions.

Choose any record you like—for the Brunswick plays all makes of disc records—with the exact equipment called for on their own machines.

All this is accomplished on the Brunswick by two simple, instantly interchangeable sound boxes. On this composite phonograph you will note a jewel point, a sapphire ball, needles of steel, etc., without extra cost. The sound chamber in the Brunswick is designed by a fa-

mous expert. And built like a violin, from long-seasoned and choicest woods from our own forests. Acoustically, it is perfect. We know you will recognize the difference when you hear this machine at our studio and make comparisons.

We want you to note also how Brunswick inventors and designers have taken all machines and combined them in one.

In the Brunswick you find only the best features of the many. Note all the features not to be obtained elsewhere. Com-We invite you to come in and hear the Brunswick. If you wish we will play the same record on the several makes of phonographs, so you may appreciate better the tone quality of the Brunswick.

Once you know the Brunswick you will prefer it. And the prices will attract.

Belgium has sent autograph letters to King Alfonso of Spain, Pope Benedict and President Wilson on the deporta-tion of Belgians by the Germans, ac-cording to the Vingtleme Sleele.

MADRID, Nov. 22.—A semi-official note made public here announces that the Spanish Ambassador in Berlin has handed the German Government a strong protest against the deportations in Belgium. The protest came from the Spanish diplomatic representative at Brussels. The Ambassador who is charged with the protection of Belgian interests asked the Government to relinquish its measures for deportations and to release those who have been victims of it. The note says that pending the succome of the protest the Spanish Government has instructed its Ambassador te do his utmost to obtain better treatment for the deported men.

T is doubtful if in all history there has been an active, authenticated reign longer than that closed by the death of Francis-Joseph.

Grief.

At 19 years of age he ascended the throne of Austria, upon abdication of his uncle, Ferdinand I, Dec. 2, 1848, his heath today ending an active reign of nearly 68 years, all but the first 20 of which he was also Apostolic King of Hungary.

Tradition says that Pharaoh ruled for 99 years and there is the more credible instance of Rameses II, Seostris of the Greeks, whose reign is reputed to have covered 67 years.

But in recorded history there certainly has been no reign equal in period of time to that of the Hapsburg which closed today. Louis XIV of France was nominally King for 72 years. He actually occupied the throne for little more than half a century. A closer rival, and the only one of modern time, was Queer Francis-Joseph's reign was as event

ful as it was long. From his imperial vantage point he saw the French monarchy go down, the second empire rise and crumble, the commune flare brief ly, and the republic of today rise on its nshes: he saw the black pinions of the Prussian eagle stamped on the flag of the new German Empire—later to towe: threateningly over Austria itself; ha saw the papacy shorn of its territorial demesne, while a bickering family of petty principalities was welded into united Italy; he saw Spain, once the greatest of colonial powers, lose the last of her dependencies in two oceans; he saw Japan opened to Western civilization, and later defeat the sprawling colossus of two continents; he saw the most absolute despotisms-Russia, Turey and Persia concede representation

But it is doubtful if any or all of these army maneuvers to the last. In Austrians pinned their hopes, met death in a mystery which to this day is not cleared.

Graves hold the secret of that fateful night at a hunting lodge in Meyerling. There have been a dozen versions of what occurred. One "true story" relates that the Crown Prince was struck dead.

But that was not all. Again it seemed that "nothing could be spared him." The last blow was the assassination of the Archduke Francis Ferdinand and his wife, the Duchess of Hohenburg, at Sarajevo, on June 27, 1914. Following this came the war against Servia, which has thrown almost all Europe into a tragic struggle of arms.

After each blow he renewed his de-

votion to the state, his only solare being in harder work. He labored prodigiously. He was beloved for his kind-liness, his modesty and rectitude, and his high moral courage made it possible for him to hold in leash the Czechs, the the Bulgars, who made up the mosaic of nationalities in his dual empire.

Gossip dealt plentifully with his private life, filled with romance and misfortune. It is related that his mother intended him to marry Princess Helena, eldest daughter of Duke Max of Bavaria. With passive indifference the this will cleanse the hair of dust, young Emperor agreed to his mother's dirt or any excessive oil—in a few wishes, and set out to pay court to his intended bride. He learned that she was Princess Elisabeth, younger sister of his intend-ed. He resolved that Elisabeth should be his bride and so she became in 1854. In addition to her beauty, Elizabeth was highly endowed with talents, but she found no welcome at court. The Emperor's mother could hardly counconance the match, and all of the Vien-less aristocracy held aloof from her. Citabeth returned scorn for scorn. Her memies bore her every tale that could wound her pride and estrange her love.
At last they succeeded. In a burst of rique she fled to her native Bavaria.
She came back, but the Viennese never forgave her. They charged her with forgave her. They charged her with loving fox hunting in Ireland better than her duty and preferred to remember her always as the absent wife.

RED CROSS SEALS ON SALE

Two large orders for Red Cross Christmas seals have been placed with the St. Louis Tuberculosis Society in advance of the opening of its annual seal sale this week. They are from the retail drug firms of the city and from the Central Trades and Labor Union, which will place the little stamps on the December union cards of all its members as an evidence of its official indorsement of the object of the sale and to aid in raising money to fight tuberculosis in St. Louis.

The druggists are placing the seals

among their other specialties for the holiday trade and are taking the stamps on consignment.

Cremation Appeals to Thinking People

In 1885 there were 28 Oremations in America; more than 2000 in 1900, and in 1913, the last year for which records are complete, 10,183 people in the United States chose that their bodies be cremated.

THE trend in favor of cremation I is growing rapidly. The process restores the elements of our earthly bodies to nature—to the sunlight and the air—in a way that is sanitary and economical, consistent with the tenderest sentiments of human love, and in accord with the doctrines of Chris-

Frances Willard said That in providing for her body to be cremated she was serving the cause of poor, eppressed humanity after her death, as she had tried to serve it

A realization of the shocking dese cration that burial in the earth brings upon the bodies of our dead, leads thinking people to accept the custom of cremation with a feeling of grateful relief.

German Foregn Minister Gives Condition of Health as Cause of Resignation.

AMSTERDAM, Nov. 22.-Gottlieb von Jagow, the German Minister of Foreign Affairs, has resigned, according to a Ber-lin dispatch. The condition of his health is given as the cause of his resignation.
Dr. Alfred Zimmermann, Under-Secretary of Foreigh Affairs, the dispatch tary of Foreigh Affairs, the says, probably will succeed Von Jagow.

The Berlin Tageblatt prints a rumor

Jagow will become Ambassathat Von Jagow will become Ambassa-dor at Vienna to succeed the late Count von Tschirschsky. The possibility has been discussed in diplomatic circles ever since the death of Von aschirschsky, particularly because it is particularly because it is known that Von Jagow accepted his ministerial post reluctantly and never intended to hold it permanently. The Tageblatt declares that Chancellor von Bethmann-Hollweg's visit to army headquarters is connected with filling the Vienna post,

Tschirschsky gave up the post of Forign Secretary to become Ambassad

VON JAGOW WAS EXPECTED TO QUIT

Staff Correspondent of the Post-Dispatch and the New York World, who recently returned from a visit to Germany to observe conditions

NEW YORK, Nov. 22 .- Foreign Minister von Jagow's health has been "dip-lomatically delicate" for several months. When I was in Berlin several weeks ago it was a notorious fact that Jagow was out of sympathy with the administra-tion of the Chancellor, Von Bethmann-Hollweg, and I learned then authorita-tively that he soon would leave his post as Secretary of State for Foreign Af-

It was common gossip in well informed frcles in Berlin that the only thing holding his resignation back was the ack of an embassy place for him. Now that the Imperial Ambassadorship to Austria-Hungary has become vacant the situation has adjusted itself.

It is more than likely that Alfred Zimmermann, chief permanant

Zimmermann, chief permanent Under Secretary for Foreign Affairs, will suceced him. Zimmermann, as I have said in a series of articles on "Inside the German Empire," which the World and Cost-Dispatch has been publishing, is regarded by many persons as the biggest man in Germany today. He is friendly in disposition toward America, cing on especially pleasant terms with Ambassador Gerard. One other was mentioned as a possible successor to agow, and that was Count Brockdorffantzau, Germany's able representative at Copenhagen.

Jagew has spent the greater part of his public life in the diplomatic corps. He is a representative of the type that has lost public confidence in Germanythe subtle, smooth-spoken, Machiavel-lian type of which Metternich was the leading Teutonic adherent

Foreign Office Refers Request for Information to the Admiralty.

BERLIN, via London, Nov. 22.-Joseph . Grew, charge d'affaires of the Amerfice last night and presented the American Government's inquiry regarding the torpedoing of the steamers Arabia, Columbian and Lanao and two other steamers having Americans on board, which are alleged to have been sunk without warning.

The Foreign Office will refer the cases to the Admiralty for a report, which is considered necessary as the details of the sinking of the vessels as published here differ in several important respects from those advanced in the American representations.

This is particularly true in the case of the Columbian, which, instead of be ng in ballast and sunk without warning, was, according to the Wireless Press, reported from Spain as being laden with a mixed cargo of contraband and given a long period of grace to permit the rough sea to subside before she was torpedoed.

Affidavits of Americans on Marina Bear Out Early Reports on Torpedoing. WASHINGTON, Nov. 22.—Complete

texts of the affidavits of the American survivors of the British steamer Marina, sunk on her way to this country Oct. 28, with the loss of six American horse tenders, have reached he State Department from the embassy at London. Officials indicated that the texts corroborate the sum-mary cabled to the department two weeks ago, quoting the survivors as saying the vessel had been torpedoed without warning and had not attempted to escape.

AMSTERDAM, Nov. 22.—Dominico Murphy, American Consul-General a Sofia, Bulgaria, arrived here yesterday via Germany from Stockholm, where he went recently with his wife to visit their daughter. Despite the fact that Murphy had a special pass from the German legation at The Hague, it is said that the German authorities at Warnemuende treated the couple with incivility on their way to Stockholm and again on their return.

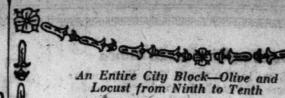

The second incident occurred, it is said, notwithstanding the intervention of Dr. Maurice F. Egan, the American Minister to Denmark, and also the German Minister who had assured Murphy that the treatment given him and his wife would not occur again. Murphy departs for Sofia today.

DANDRUFFY HEADS BECOME HAIRLESS

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. your hair and ruin it if you don't.

'It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at alight when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel n hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple rem.

A discrepancy in the returns referred to was found last night. The precinct is n the ward from which Slater is Republican City Committeeman. The commisners, in their canvass, found that eported on the abstract signed by the idges and clerks of the Sixteenth Prenct, gave Slater 299 and Newell 141, a urality of 158 votes, or 55 more than is plurality throughout the city.

Discrepancy in Tally Sheets.
An examination of tally sheets, which re kept in duplicate by clerks, showed hat on one sheet there were 241 tally marks for Newell, and on the other 141 tally marks for him, and that on both sheets the total Newell vote was writen down in figures as 241.

Counting Newell's vote as 241, which ould reduce Slater's plurality to 3, would have made a total for the two candidates of 540 votes, which would be 7 more votes than the poll books show vere cast in this precinct.

JUDGE LANDIS SAVES BOY, 15, FROM PRISON

Interrupts Stern Inquiry Into Bootlegging to Free Lad and Get Him on Right Path.

United States Judge Landis, holding court in East St. Louis today, interrupted a stern inquiry into bootlegging to save a 15-year-old boy from the Federal penitentiary and get him started in school and in right living.

a Chinese father and a negro mother and lives in St. Louis. He was arrested in Seymour, Ill., near Champaign, with Chester J. Prosser to 2606 St. Louis avenue, St. Louis, a white youth of 20, after the postoffice there had been robbed and mall pouches and goods from the store run in connection with the postoffice had been stolen.

Prosser pleaded guilty last week to a obbery charge, and was sentenced by Judge Wright to serve three years in the Leavenworth Prison. Today Wil-liam Kee's lawyer entered a plea of guilty for him, but Judge Landis, after a look at the boy, refused to accept the plea and sent for Prosser, who was still in the East St. Louis Police Station.

Questioning Prosser, Judge Landis
got a statement which cleared the
younger boy of direct complicity in the

Seymour robbery, and he also brought out a remarkable story of automobile thefts which Prosser said he had committed in St. Louis and which, he said were made possible by the carelessness of auto owners and the ineffective methods of the St. Louis police. He was never caught in any of the thefts, he said, though he declared he had taken so many cars that he had lost ount of the number.

car in sight and would run it until the casoline gave out or some engine trou-Leandon the car and steal another. He said he picked up the Kee boy "for company," and took him on a trip to Kansas City and St. Joseph in stolen machines. He said the boy went with him in a stolen car to a place near the scene of the postoffice robbery at Sey-mour, but that he did not use him in the robbery. "A little kid is apt to make a mess of a big job," he re-

From Prosser's frank statement it of passive complicity in Prosser's thefts, and of telling such stories as Prosser directed him to tell.

"Lying Doesn't Indicate Criminal." So Judge Landis decided that the boy deserved another chance. "Lying doesn't indicate that he is a criminal," he commented. "It was the auto rides and trips that led him away. All he had ever seen of autos before was to see people ride by in them, and the temptation was too much for him.

"Now," said the Judge to the Kee boy, whose mother stood beside him, "you start in school next Monday, and write me a letter the first day, telling me the name of your teacher, the class and room you are in, and what your studies are. Tell me all about it." He then declared the case against the boy dis-

Before sending Prosser back to jail, Judge Landis questioned him further about his thefts. Prosser said he stole jewelry, four years ago, in a St. Louis house where a family was being rescued from a flood, and that for this offense, he was sentenced to 30 days in the workhouse, on a petit larceny charge.

"Who Sentenced You?"
"What Judge sentenced you, and what lawyer had your case?" Judge Landil asked. The youth said his lawyer was John C. Robertson, and that Circuit Judge Koerner tried the case. He said he saved the "Age of the head of the case. he served the 30 days in the hospital, and that once before, when he was sentenced for 90 days, he was released ofter a week in jail.

Two paid investigators supplied the

evidence against Jackson, and their character was attacked by the defendant's counsel. "You can't get Sunday-school superin

tendents to go hunting for bootleggers, the Court told the jury.

LABOR AGAINST MILITARISM

Resolution Protests Against Training

BALTIMORE, Nov. 22.-The Amer-BALTIMORE, Nev. 22.—The American Federation of Labor today adopted a resolution which protested against the teaching of militarism in the public schools. Andrew Furuseth, in the debate, declared that while he was opposed to any increase in the standing army, it was his belief that "men who will not fight and women who won't be mothers are an abomination in the world."

Emil Seidel of Decatur, Ill., spoke of his personal experience in Germany. and declared that it was "an outrage that the common people should have to go out and shoot each other, for it is not the big people who do that."

Caruso chose the Victor

- -because only the Victor gives you his voice exactly as it is
- -because only the Victor thrills you with his mighty power
- -because only the Victor charms and caresses you with all the delicate beauties of his subtlest tone shadings
- -because only the Victor and Victor Records convey his matchless art to all the world for all time

Caruso is the mightiest singer the world has ever seen. He dominates the artistic world. By sheer force of his genius he has at his beck and call every resource known to his art. Only the best would suffice for such an artist. His choice of the Victor was a foregone conclusion. He decided that only the Victor could do full justice to his superb art, that only the Victor could thrill you with his power, that only the Victor could express in every fine detail the vocal subtlety of his softest tones. Hence it is that only on Victor Records can you hear him. And only on the Victrola can you hear him exactly as he is, in the tone-volume best suited to the environment in which you happen to be. Caruso's choice of the Victor demonstrates beyond question the Supremacy of the Victor.

PLAN TO RESIST

Declares He Has Requested Governor-Elect to Have Excise Laws Strictly Enforced.

GERMAN SYSTEM

Would Discontinue Bars in Saloons; Serve Only Beer and Light Wines at Tables.

In an interview with a Post-Dispatch reporter today, August A. Busch, president and principal owner of the Anheudent and principal owner of the Anheuser-Busch Brewing Association, outlined a comprehensive program for counteracting the prohibition sentiment which has grown so rapidly in recent years that territorially 85 per cent of the United States is dry by prohibitory or local option laws, and 48 per cent of the population lives in dry territory. He suggested:

suggested:

1. A strict enforcement by State authorities of all excise laws. 2. The establishment throughout the country of the German saloon system, which permits only beers, light wines

3. Co-operation by brewers with the State authorities to put out of business every saloon keeper who does not obey the excise laws.

4. Abolition of treating in saloons, t

discourage drinking to excess.

Need of Meeting Places. "Do you think, Mr. Busch, that there will come a time when the people will tire of prohibition and permit the sale of beverages for consumption in the home, but not in the saloon?"

"I do not expect such conditions," he said. "As I said before, I think the saloon, with the bar eliminated and the sale of stronger drinks prohibited, will not be objectionable. I think that is the solution of the question. I do not think the middle-man's club should be taken away from him. There ought to be a place where people can meet, exchange views and be served with light beverages. People would not care to transfer this sort of pleasures to their homes. There ought to be an institution pe cultarly for such purposes.

"And now," added Busch, in conc' of the interview, "if I had befor convention of the brewers of the States, I should say to them t sible service to their own interest, would insist upon the strict enforcement of the dramshop laws and co-operate with the proper authorities in closing every saloon that has not been conductd strictly according to these laws."

Bishop Wise was consecrated Oct. 28, in the Church of the Holy Communion. Washington and Leffingwell avenues, of which he had been rector. By the rite of consecration he was made Bishop co-adjutor of the Kansas diocese, with the right of succession, and this succession is automatic, without further ceremony, upon the death of Bishop Millspaugh. The consecration ceremony was hast-ened because of Bishop Millspaugh's se-rious illness. Bishop Millspaugh came to St. Louis Oct. 11 for the general convention of the church, but was unable to attend any of the sessions of the House of Bishops, and returned within a few days to Topeka.

DOG ATTACKS THREE PERSONS

ST. LOUIS POST-DISPATCH

With His Mother Bitten-Little Girl Rolled on Ground.

A bulldog belonging to Mrs. Carolin Bayer of 4829 Hamburg avenue attacked Mrs. Jennie Spangel of 4750A Hanover Square, her daughter, Margaret, 3 years old, and son, Arthur, 15 months old when the three went into the Baye yard yesterday to buy some eggs. The little boy was bitten on the leg. The little girl was rolled on the ground, but was protected from the dog's teeth by the heavy sweater she wore.

Mrs. Bayer told the police she had warned neighbors to keep out of her yard when she was not at home. She was at a corner grocery. The police have ordered the dog chained. It will be examined by the City Bacteriologist

> Associate Counselor Says City Can Acquire Necessary Land by Paying Awards.

DRDINANCE TO BE DRAWN

Street to Be Widened From 100 to 150 Feet North of Easton Avenue.

Associate City Counselor Young sen to Director of Streets and Sewers Talbert today an opinion holding that by paying into the St. Louis Circuit Court \$163,000, the city may take possession of two strips of property necessary to increase the width of King's highway between Easton avenue and Penrose street from 100 feet to 150 feet. This amount repre ers of the frontage, and \$18,000 for the city's share of the cost of the improve

The opinion clears the way for promp Department of Streets and Sewers and the Board of Public Service. The next step will be the preparation of an ordinance directing the payment of the awards. This ordinance must originate with the Board of Public Service. Director Talbert, in whose department such ordinances are drafted, is out of the city and will not return until

The payment of the awards, as Young es, will mark the beginning of the physical improvement of the north sec tion of King's highway, which the peo-ple in 1906 voted to make a boulevard. Half a milion dollars raised by a bond issue to purchase land for widening and extending the thoroughfare has been o establish King's highway as a boulevard, the city changed its plans and bsequently authorized its improvement as a street of more than ordinary width The validity of the second ordinance was contested by property owners and the suit has been in the courts since 1909.

How Street Is to Be Widened. The property required to give King's highway the additional width consists of a strip starting with a width of 50 along the west side of King's highway and diminishing to a point at Spald avenue, a strip on the east side of the street beginning at a point at Easton avenue and having a width of 50 feet at Spalding, and a third strip 50 feet wide on the east side of King's highway, between Spalding avenue and Penros

North of Penrose street the city has acquired property to permit the exten-sion of King's highway northeast from Penrose Park to Florissant avenue This

The Board of Public Service ordinance appropriating \$163,000 must have the approval of the Board of Estimate and Apportionment before it is presented to the Board of Aldermen. Advocates of the improvement do not anticipate opposition from the Board of Estimate and Apportionment. Associate City Counselor Young

a Post-Dispatch reporter that the pay ment of the awards would not prevent further litigation over the widening of King's highway, but that in his opinio t would permit construction to begin whenever the Board of Aldermen pas he bill appropriating the money.

"Exceptors to the findings of the con ission appointed by the Circuit Court may continue their attempts to increase damages, and those against whom ben these amounts reduced, but there is no making the improvement," said Young.

Litigation Hinges on Damages.
Assistant City Counselor Senn said hat the State Supreme Court has upheld the validity of the ordinance which repealed the previous ordinance under which King's highway was to have been established and improved as a "technical" boulevard-one on which here would have been restrictions on traffic, building lines and the like. The uit brought by the city was remanded by the Supreme Court for a new trial, accordance with its decision, Senn said, and none of the original issues could again be raised by the defendants. Further litigation, Senn said, would hinge on the amount of benefits and damages, respectively, assessed and allowed by the commiss

The Christian brothers and many others were made defendants to the original suit instituted by the city to condemn the property requisite to the greater width of King's highway, but only six individuals and interests filed exceptions to the commissioners' find-ings. The Christian brothers did not resist the city's attempt to acquire a part of their tract, although their name still

UNITED RAILWAYS PROBLEM.

The conference between municipal officials and United Rallways officials will be futile unless it results in a broad, progressive settlement of the street railroad situation in St. Louis. The adjustment merely of surface differences regarding the mill tax and other minor questions will leave the problem unsolved. The differences now are fundamental. The settlement must accomplish these

Assurance that St. Louis will not be squeez and hampered in urban transportation to make good millions of watered securities.

Assurance of improvements and extension ample street railway facilities for the future.

It is vain to expect St. Louis to be satisfied with the mere settling of tax problems and extensions of franchises which would leave the city in its present hampered condition for years without provision for present or future needs.

The present surface system of transportation is inadequate. Provision must be made for subways and extensions in the city and suburbs.

The Post-Dispatch repeats its suggestion that the only satisfactory settlement will limit the earnings of the United Railways to fair returns on a fair valuation and devote all in excess of that to a fund for real rapid transit. The United Railways corporation should be willing to accept reduced securities which are good in the market for avoidance of bankruptcy, extended franchises and improved property.

The Bryan gusher which was spouting so voluminously in 1908 has gone completely dry.

ELUSIVE PEACE.

We seem to be nearer war than at any time since the European struggle began. Lowell's verse is the American idea now: "God, give us peace, not such as lulls to sleep,

But sword on thigh and brow with purpose And let our ship of state to harbor sweep, Her ports all up, her battle lanterns lit

And her leashed thunders gathering for their No people are ever more averse to fighting than the American people at the present time. If we escape in both Mexico and Europe it will be rare good fortune linked with skillful diplomacy.

THE GENTLE ART OF LOSING WELL. The most hopeful of the Republican manager in California are resigned to the election cataclysm in that State. They concede that the maximum plurality for Wilson electors in California will be in the neighborhood of 3416 and that the variations in the vote on different candidates for elector will not be sufficient to give success ever

to the high man on the Republican ticket. But two weeks and one day after election finds National Chairman Willcox still carrying the nation for Hughes and Fairbanks. Mr. Hughes himimportance is my wrath and the wrath of self, on Nov. 22, is as little smoked out on the election returns as he was on Nov. 7 on the issues of the campaign. We are told that he believed that the high license system was prefer-"golfed" yesterday. He might better have been able, but on principle. Mr. Bryan cannot alter case without assistance from injudiciary in truth or make falsehood respectable by changing forming an opinion as to the truth of the accusaimacy of the papacy in the church at large tions. However, there was a color which unquestionably possessed ample jurisuiction for taking cognizance of the charges. That court was given opportunity to inquire into the justice of the election inspectors' acts. It could have sifted the facts on sworn testimony and presented conclusions helpful to public judgment.

That, of course, was Judge Miller's court, in which a large number of negroes arrested for alleged attempts at illegal voting were arraigned on the morning after election day. But the Court if at all, in power for good to that which the summarily dismissed all the defendants who crowded the corridors and antercoms. It made no effort in any case to determine the justification for the arrests.

The remarkable course taken is to be regretted from the standpoint of the public and also from that of the defendants themselves. If the accused negroes were guilty, they should have been punished. If they were innocent, they were entitled to vindication in open court.

UNION LABOR AND LAW.

The intimation that the Railroad Brotherhoods will await the test of the Adamson law in court before taking action is a sign of wisdom on the part of their leaders.

There is nothing else that good citizens can do except await all the processes of law. The brotherhoods accepted the law and they must which will give St. Louis real rapid transit and abide by it. They must find redress and protection through the law.

The decision of the court may be favorable to them. It may invalidate the law. If the law is declared invalid Congress may be able to correct the points of invalidity. The cause of the brotherhoods is not lost because the railroads appeal to the courts.

But apart from the possible advantage of wait ing for the court's action, this course is the clear duty of American citizens, who support and cherish a government of law not of force. Labor leaders should be the last men to revolt against law. Their own protests against the lawlessness of corporations and the benefits they have gained from progressive laws should impel them to up-

DUSKY CONGO TO BELGIUM.

The Congo was a personal asset of King Leopold at the time of the atrocities that shocked the world. Some Belgians were included among the creatures who helped to execute his policies but the Belgian people have never been held responsible for the savagery. They joined in the universal protest that went up against the cruelties and co-operated in the measures that ended them.

It is therefore especially fitting that the inhabitants throughout the Congo basin should gather at their local rendezvous as soon as the latest news from Belgium penetrates the forests of Darkest Africa. No other people in the world can know as do these dusky people what it means to be enslaved, to perform enforced labor for pittance or no wage at all, to be dependent or the mercies of harsh taskmasters, to incur penal ties for a refusal to work or a failure to make stated amount of work produce a stated amoun of results.

An expression of sympathy, formulated in moving whereases and resolutions, is owed by the rescued people of the Congo to the people of Belgium, whom the world has yet to redeem from their bondage.

A VANISHING TABOO. By Charlotte Rumbold.

A taboo and a health department belong to such different planes of civilization that they are hardly thinkable together. If the Papuans and the Tuni Indians had ever conceived a health department the books on their family and religious life and especially on their marriage customs would not be such wonder tales to us, but life might have been more tolerable to them.

Condescension is not a becoming attitude, how ever, not even toward the races whose history is written in weapons and pottery and burial mounds, when we consider the struggles of the Social Hygiene Societies in raising the taboo of silence on one of the devastating scourges of mankind. By some curious twist, that in a hundred years will be as much a study for a psycho logical laboratory as any sacred mutilation of the tribes in the jungles, we have regarded father hood and motherhood as holy things, but the study of them, almost the mention of their difficulties and safeguards as indecent.

Facts About Tea Geometric Dancer Dosen't Believe in Love

Saint Point-Would Have All Children Raised by the State-Says Fathers Are Too Severe and Mothers Are Too Tender.

By Nixola Greeley-Smith. HE square," said Mme. Valentine de Saint Point, "indicates a mood of absolute serenity. You annot possibly look at a square and be ncited to violence or even anguish. The square is much too definite for that. On the other hand, what restlessness there is in the circle! It suggests a perpetual tour of one's self. And for aspiration ecstacy, what can express these feelings more perfectly than the cone attained

I did not answer the beautiful Mme de Saint Point because I did not know how. In the dining room of the hotel Lamartine, great poet of France, who has come to America to interpret for us the art of metachory, which she has invented, and which is known otherwise as geometric dancing. Now, what counterpoint is to music

Saint Point is to dancing. If you don't understand that right away, remember that it took me all one never be able to cross the pons asino rum of geometric dancing, though back in the dark ages I had crossed the original bridge with my eyes shut. Mme. de Saint Point, granddaughter of a French Marquis, and, as her advance notice informed me, a poet, philosopher, esthetician, playwright, painter, engraver lecturer and author of 10 published vol-umes, is a very handsome woman blonde, blue-eyed and, for her race, quite tall.

She does not wear corsets. She abhors

fact, yesterday when we met for tea she was in a mood to loathe clothes of all description. For the Customs House had mistaken her personal gowns as "the-atrical costumes" and sent them to the public stores, and though sime. de Saint Point had spent the afternoon trying to get them back, the brutal representatives of the land of the free had re fused to give them to her.

Her Mind Naturally in a Revolution ary Whirl.

Consequently her state of mind did not, geometrically speaking, indicate a square. It was not a mood of absowhere she is staying I sat, metaphori- lute serenity, but suggested, on the concally, of course, at the highly original trary, angulsh, not to say violence, a feet of the great-great-grandniece of perpetual tour of one's self, circles, rings, wheels, everything round and revolutionary.

The geometric dance, I must say at once, is so called because Mme. de Saint Point thinks of some geometric figure before she begins her interpretation. She dances usually her own poems set to musician with her to the United States. bolizes the war in Europe and is called the poppy—the poppy indicating the blood of French heroes who have fallen. The geometric figure which the dance follows is a conventionalized poppy, and the effect is heightened by music, perume and the highly original costume the dancer wears.

"I dance veiled." Mme. de Saint Point explained to me, "because the face take away from the geometric effect. All those parts of the body where flesh preninates over muscle must be concealed. A woman's undraped body

E. J. WALSH SUED

Edward Walsh Humphreys Wants to Collect on Late Uncle's Note to Father.

WAS GIVEN 15 YEARS AGO

Amount Was for \$140,000, but Principal and Interest More Than Doubles It.

Edward J. Walsh of 4349 Westminster place has been sued by his first cousin, Edward Walsh Humphreys of New York, in the Court of Chancery at Trenton, N. J., on a note for an original amount approximating \$140,000, said to have been signed more than 15 years ago by the late Edward Walsh, father of Edward & Walsh. Dispatches from New York today told of the suit.

According to the allegation in the sult, the note was given by the late Edward Walsh to the late Solon Humphreys, father of the man who is suing to collect the amount. Edward Walsh Humphreys is executor of his father's estate, and is suing Edward J. Walsh, as executor of the Edward Walsh estate, for the principal and interest, which is said to amount to more than the principal, making the total claim exceed \$280 000 The suit alleges that note constitutes an obligation the Walsh estate.

Were Brothers-in-Law.
The late Edward Walsh and the late Solon Humphreys, chief parties to the aw, Mrs. Humphreys having been Miss Ellen Walsh, sister of Edward Walsh and Julius S. Walsh. Mrs. Humphreys fied a year ago last month.

Seervice was obtained on Edward J. Walsh, defendant in the suit, when he was passing through Newark, N. J., on train, the dispatch said. The subpens served on him is returnable next Monday at Trenton.

uestions at his home, 9 East Sixtyfifth street, said last night that he did not know the exact amount of the note or its date, and that he did not know the amount or the exact nature of the ecurity. He said, however, that he believed the security was chiefly realty, but could not say where it was located. Humphreys said his father and his incle were closely associated personally, but not so closely in a business way, nd that the loan was more of a peronal than a business transaction. He called attention to the fact that he him self was named after Edward Walsh, who is named in his swit as signer of

Payment Not Made. "I have Which Mr. Walsh refuses payment," Humphreys was quoted as saying. "It may be that he, as executor of his father's estate, does not recognize the bligation as his father's. Edward J. Walsh, defendant in the uit, was believed to be in New York

but reporters did not succeed in findin him at any of the principal hotels. This suit is the second filed within the Walsh family in a little more than six months. In the St. Louis Circuit Court May 2 last, Mrs. Julia M. Walsh of 4341 Westminster place, widow of Edward Walsh and mother of Edward J. Walsh, filed suit for \$455,777 against Edward J. Humphreys, plaintiff in the present suit, and Julius S. Walsh, the

present suit, and Julius S. Wa latter being her brother-in-law. In her suit, Mrs. Walsh sought to re-over stock in the Mississippi Glass Co. of New York, which took over a Missouri concern of which her husband, Edward Walsh, was president at the time of his death. At that time, her etition alleged, Walsh owned 423 shares of the stock og the Missouri company, and Edward W. Humphreys owned 523 shares. She alleged that, when the New York company took over the Missouri concern, giving its stock in exchange fo rthat of the Missouri company, a roper division of the stock was not ade. She charged also that her huspand did not receive his proper share of the profits of the Missouri company, \$143,000 being due him at the time of his death, and this was made a part of her

An answer to this suit was filed Aug. An answer to this suit was nied Aug-6 by Julius S. Walsh, and another an-swer was filed by tme Mississippi Valley Trust Co., which was named as a co-defendant. These answers denied the principal allegations.

Miss Addle M. Scott Sues T. H. Porrester for \$7500.

Miss Adde M. Scott of 3875 Washington boulevard, filed suit in the Circuit Court today against Thomas H. Forrester, head of T. H. Forrester & Co., stock brokers, with offices in the Central National Bank Building, for \$7500 damages for an assault she alleges Forrester made on her in his office lass December.

The petition recites that Miss Scott went to the office to talk over business matters Forrester was handling for her and that during the discussion he became angry and struck her, knocking her against a wall, and then put her out of the office. Neither Forrester or Miss Scott could be reached this morning for a state-

Special Suit Clearance

Just three weeks ago today (many of you will recall the wonderful values) we had a house cleaning, so to speak-a clearing of all broken lines and short lots to make room for the arrival of several thousand New Suits for Nov. 1st delivery, and now, after three weeks' record suit selling, we must do the same thing, the only difference being now we're going to include several hundred Suits, bought within the last week at a big discount. We're going to let them go along with the broken lots. It'll be a record breaker-in values, at least, and should be in selling.

Quickly Corrected Trouble With Simple Laxatives

Dr. Caldwell's Syrup Pepsin Relieved Her Baby When Nothing Else Would.

Little Max Pendergrast is now four years old, and a fine healthy boy. When but a tiny baby in fact almost from birth, he suffered a great deal from constipation. His mother, Mrs. Carl W. Pendergrast, Red Key, Ind., heard of Dr. Caldwell's Syrup Pep-sin, obtained a bottle of it from the drug store and with it was able to quickly correct this condition.

Mrs. Pendergrast says Dr. Caldwell's Syrup Pepsin has saved them from calling the doctor many times, and that she will never be without a pottle of it in the house to use when needed. She found it equally effec-tive as a laxative for herself and

other members of the family.

Dr Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin, pleasant to the taste, mild in action and positive in effect. It does not gripe or strain, and contains no opiate or narcotic drug. It is the ideal family laxative, mild and pleasant for baby, yet acting quickly on the strongest constitution.

To avoid imitations and ineffective substitutes be sure to ask for Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is can be obtained by writing to Dr. W. B. Caldwell, '455 Washington St., Monticello, Illinois.

Thorpe's fighting spirit never deserted him. He showed that he had plenty of it when, at the beginning of the very first round, it was he who got the range first, and he shot two left-hand jabs to Leonard's face that must have surprised that young gentleman. Those two punches put Thorpe in the lead the only time during the bout. Big Tackle, Main Reliance of South Siders, Is Laid Up With Blood Poisoning.

Russell Deeds; star tackle of the McKinley High school team, is confined to his bed with an infected foot that his physicians fear will develop blood-poisoning. Deeds has not been out for practice since Friday and the McKinley students are despairing of his ability to oppose Central in the championship battle this week end.

News of Deeds' disability hit the McKinley campus like the proverbal thunderbolt from a clear sky. His tunderbolt from a clear sky. His out and cleaned up, just as for-

injury he received in its statuture, spanne with Soldan. This gloom was partially dissipated when Coach Walker announced that Wetteroth's place would be filled by none other than Robert Larmors. Bob has had experience at guard, as he played there last year, and his being put on the line for next Saturday's game makes the hopes of Central shine brighter than ever.

Larmore has not played in any games this fall as he was under the impression that his name had not been registered with the Interscholastic League officials. The records were looked up yesterday and it was found that he was eligible to play—Bob then made a mad rush for his moleskins. His record as a kicker is without a blemish and he has been keeping in practice all fall by coming out and kicking quite a bit every night so that when the game starts next Saturday afternoon, the McKinley boys will be opposing two kickers.

The Christian Brothers' College football team closed its present season yesterday afternoon with a 10-to-0 victory over the Southern Illinois Normals at Carbondale. Ill. Waiter Essman and Willett proved the stars of the purple and gold quintet. Essman was pushed over for the C. B. C. team's lone touchdown in the second quarter, while Willett tacked on three points with a field goal in the final period. Willett missed two other attempts for field goals by inches. Quarterback Larry Reilly of the local team and Haifback Boswell of the Normal team were put out of the game for fighting.

With yesterday's contest, the purple and gold wound up its campaign with a record of two victories and two defeats.

In the four games played this season, the locals secred 73 points, against 53 for opponents. The record follows: C. B. C. 6. Router Illinois Normals 6.

Principal and interest payable in New York at the National City Bank of New York in gold coin of the United States of America of the present standard of weight and fineness, or its equivalent in United States currency.

EXEMPT FROM ALL PRESENT OR FUTURE RUSSIAN TAXES.

These bonds are the direct general credit obligation of the Imperial Russian Government whose faith and credit are pledged to the prompt payment of principal and interest when due. The text of each bond will embody substantially the following clauses:

The principal is payable at maturity at the option of the holder in roubles at the office of the Imperial State Bank of Russia at the current commercial rate of exchange of Petrograd at sight on New York.

This bond is eligible as security for Imperial Russian Government contracts, where deposit is required, at the rate which, according to the Russian law, is fixed and determined by the Minister of Finance of the Imperial Russian Government every six months.

Both the bonds and the coupons of this loan at maturity may be applied to the payment of all customs house dues. The customs revenues of Russia in 1913, the last normal year, were \$194,200,000, which compares with \$160,680,000, the average from 1908 to 1912, inclusive.

The volume of American exports to Russia has been steadily increasing. The essential object of this loan is to facilitate the continuation of this export trade. The official reports of the United States Government show \$300,362,626 exports to Russia for the eight months ended August 31, 1916, as against \$169,099,931 for the entire year 1915.

Summary of Plan

On April 20, 1915, receivers of the railroads and properties of The Chicago, Rock Island and Pacific Railway Company, were appointed and the receivership still continues. The interest on the Twenty-Year Five Per Cent. Gold Debentures, which matured January 15, 1916 and July 15, 1916, has not been paid, but no defaults have occurred in the payment of interest upon any of the obligations of the Railway Company secured by lien upon its property or the property, of its subsidiary railroad corporations. A committee representing certain holders of the Railway Company's First and Refunding Bonds has, however, commenced suit by leave of Court for the foreclosure of the First and Refunding Mortgage, alleging various defaults other than non-payment of interest. This litigation is being contested by the Railway Company and by the Joint Reorganization Committee. Representatives of the Joint Reorganization Committee have been holding informal conferences with members of the said committee representing First and Re-On April 20, 1915, receivers of the railroads and properties of Joint Reorganization Committee. Representatives of the Joint Reorganization Committee have been holding informal conferences with members of the said committee representing First and Refunding bondholders of the Railway Company. Under the provisions of the Plan and Agreement of Reorganization the Joint Reorganization Committee is empowered to make any settlement, compromise or arrangement that may, in its discretion, be deemed advisable with respect to the First and Refunding Bonds or with respect to any other secured or unsecured obligations of or claims against the Railway Company.

In addition to mortgage debt and equipment obligations, the Railway Company has outstanding in the hands of the public \$20,000,000 face amount of Debentures, and \$74,359,722.50 par value of capital stock all of one class.

Negotiations between members of the Debenture Committee, the Amster Committee and the Hayden Committee have resulted in concerted action looking to early reorganization of the Railway Company. As a result of these negotiations, and upon the understanding that approximately \$30,000,000 new cash capital would be provided in reorganization, the Debenture Committee has consented that the Plan shall provide for the delivery to Debenture holders of new 6% preferred stock (cumulative up to 5% per annum) in lieu of the fixed charge obligations now held by them.

The properties of the Railway Company are either to be retained in the present company, subject to a readjustment of securities, or are to be vested in a new company or the Railway Company otherwise reorganized as may be determined by the Joint Reorganization Committee, subject to all liens of record.

New Securities

The reorganized company will have capital stock presently issuable as follows:

The reorganized company will have capital stock presently issuable as follows:

\$30,000,000 in par value of 7% preferred stock;
\$20,000,000 in par value of 6% preferred stock; and
\$75,000,000 in par value of common stock.

The Joint Reorganization Committee may in its discretion determine that the authorized amounts of the 6% preferred stock or of the 7% preferred stock, or both, shall exceed the amounts above specified by not more than \$15,000,000 in par amount for both; and any part of such preferred stock not required for the purposes of the Plan may be placed in the treasury of the reorganized company for its general corporate purposes.

The 6% preferred stock will be cumulative up to 5% per annum from and after July 15, 1916; and the 7% preferred stock will be cumulative up to 5% per annum from and after such date as may be fixed by the Joint Reorganization Committee, having regard to the amounts of the several instalments and the respective dates fixed for the payment thereof by depositing stockholders.

The 7% preferred stock will be preferred as to dividends over the 6% preferred stock to the extent of 1% per annum.

The charter of the reorganized company will provide for cumulative voting at all elections of directors; and all directors will be elected annually. There will be no voting trust created with respect to any stock issuable to depositors under the Plan.

· Cash Requirements The amount of cash provided for in the Plan is \$29,743,889 To be applied as follows:

collateral 1,600,000
Receiver's Certificates, Series A 5,488,000 Receiver's Certificates, Series B...... 1,100,000 \$18,188,000

To meet reorganisation requirements and to provide additional working capital for the reorganized company

Provision for Cash Requirements

A Purchase Agreement has been entered into by the Joint Reorganization Committee with Messrs. Speyer & Co. and Messrs. Hayden, Stone & Co., therein referred to as the Bankers, whereby the latter have agreed to purchase, for the sum of \$29,743,889, less a commission of 3%, the \$29,743,889 par value of new 7% preferred stock and the \$74,359,722.50 par value of new common stock to be

Distribution of New Securities

The Bankers have authorized the Joint Reorganization Committee to offer, for account of the Bankers, the stock so to be acquired by them to holders of Certificates of Deposit for stock of the Railway Company as follows:

\$40 in par value of new 7% preferred stock and \$100 in par value of new common stock for \$40 in cash, in respect of each share of stock of the Railway Company represented by such Certificates of Deposit.

Holders of Certificates of Deposit for Debentures are to receive in cash the 5% arrears of interest on their Debentures to July 15, 1916, and, in respect of each \$1,000 Debenture, \$1,000 in par value of new 6% preferred stock.

Capital Obligations and Fixed Charges The Plan leaves undisturbed the mortgage debt and equipment obligations of the Railway Company and its subsidiary corporations, aggregating as of November 2, 1916, \$257,758,383, but provides for the retirement in reorganization of the following!

Twenty-year Gold Debentures, 5%..... \$20,000,000 Two-year Collateral Trust Gold Notes, 6%..... 7,500,000 Loan, Central Trust Company, 5%...... A decrease of \$2,054,400

The Plan contemplates a reduction of \$38,188,000 in fixed charge obligations, and an increase of \$49,743,889 in stock—of which \$20,000,000 is to be issued in exchange for Debentures and \$29,743,889 for cash. The proportion of stock to fixed charge obligations is at present 25.12%; under the Plan it will be 48.14%,

Requirements and Resources after Reorganization

For the calendar years 1917, 1918 and 1919, it is estimated that the cash requirements of the reorganized company for the payment of obligations maturing during those years and for additions and betterments (but exclusive of such amounts as may be expended for rehabilitation) will be approximately \$38,312,840, as against which it is estimated that there will be available

\$8,000,000 in cash; 54,174,000 face amount of First and Refunding Bonds; 2,757,000 face amount of St. Paul & Kansas City, Short Line R. R. Co. First Mortgage Bonds; and 1,965,000 face amount of Rock Island, Arkansas & Louisiana R. R. Co. First Mortgage Bonds.

In addition, the Receiver will turn over to the reorganized company such funds as may remain undisposed of in his hands upon the pany such funds as may remain undisposed of in his hands upon the consummation of the Pian. These funds will be available for the general corporate purposes of the reorganized company, after deducting therefrom such amounts as it may be required to pay in respect of renunciations and disallowances during the receivership. On November 2, 1916, the funds so in the hands of the Receiver amounted to \$4,821,589, a part of which represented accumulations made by him in anticipation of payments then presently to become due. The renunciations and disallowances during the receivership, as of November 2, 1916, are estimated at about \$1,250,000 (some of which will be contested). of which will be contested).

of which will be contested).

The Pian contemplates that (in addition to the \$29,743,889 in cash to be raised in reorganization as above stated), \$15,000,000 face amount of First and Refunding Bonds will be sold, so that the reorganized company may be provided with funds with which to meet the major capital obligations that will mature during flic calendar year 1917. The release of collateral upon payment of the above-mentioned collateral loans will, it is estimated, provide more than sufficient face amount of these bonds for this purpose.

Earnings

12,312,198

From the Receiver's reports it appears that the net income of the Railway Company for the fiscal year ended June 30, 1916, applicable to interest charges was \$15,209,479 As against total interest charges on funded and un-funded debts for the same period (including interest on the Debentures) of

Leaving a surplus for the year ended June 30, 1916, of The Plan contemplates a reduction in fixed charges of \$2,054,400 per annum, of which there was actually charged against income for the fiscal year ended June 30, 1916

Taking the net income for the fiscal year ended June 30, 1916, as the basis, there would have been, after crediting to the earnings for that year an amount equal to its proportion of the saving that will be thus effected in reorganization, a surplus applicable to dividends on the stocks of the reorganized company of...

For the four months ended October 31, 1916 (October estimated) the gross earnings of the Railway Company were \$29,577,985, an increase of \$4,325,300 over the same period in 1915.

SHARP BREAK MARKS CLOSE IN STOCK MARKET

Post, in its copyrighted financial review today, says:

"A sharp decime, which began about midday, was the first decided movement that occurred in today's market. During the morning prices had swayed irregularly, with rapid advances here and there, and general sluggishness elsewhere. The reaction at noon carried prices downward about 3 points on an average for the active stocks. In the afternoon minor railles occurred, without bringing any especial improvement, and a substantial decline took place toward the close of business.

"The market, as was natural, in its present state, was easily swayed by rumors, most of which lacked confination. A fresh plece of foreign financing was announced late in the day, in the shape of a loan of \$25,000,000, by a New York bank, to finance grain exports. Call money advanced to 4 per cent just before the close of the market.

"Publication of the fact that the Fed-

cent just before the close of the man-ket.

"Publication of the fact that the Fed-eral Court in Kansas City had dismissed an appeal for an injunction to restrain the enforcement of the eight-hour law coincided with a sharp decline in the railway shares. Even at the moment, however, Wall street realized that the action of a court in a single district could have no bearing on the final de-cision of the question and would mere-ly hasten the ruling by the Supreme Court.

made and in which their obligations are payable.

The Russian Loan.

"Public offering of the \$50,000,000 loan to Russia was announced today at a price to yield about 6% per cent. The terms of the offering contain some curious provisions, the effect of which it is not easy to fathom at the present moment. Among these, the one which has excited most comment is the option of the holder to accept payment either in dollars at New York or in rubles at Petrograd, at the current rate of exchange. Had a specific rate been fixed, there would have appeared the now familiar possibility of a profit from an advance in exchange rates. As the matter stands, a credit in Petrograd could only be realized on in New York by the sale of ruble exchange at the current rate; and if the holder of the credit in Petrograd could sell it for dollars in New York, the Russian Government could, presumably, with equal ease, effect payment in New York through the foreign exchange market. In connection with foreign loans in this market, it was stated today that \$30,000.000 credit to three French cities, announced last Saturday, had been more than twice applied for."

REPUBLIC OF CHINA

Six Per Cent. Three-Year Secured Gold Loan Treasury Notes of 1916

Due November 1, 1919.

Principal and semi-annual interest (May 1st and November 1st), payable in United States gold at Continental and Commercial Trust and Savings Bank, Chicago, Illinois, or at Central Trust Company of New York. Coupon notes of \$1,000 denomination, registerable as to principal.

Redeemable in whole or in part at the option of the Republic on 30 days' published notice, as follows: During the first year a premium of 1% and any time thereafter at a premium of 1/9%.

This loan is a direct obligation of the Republic of China and is secured, in respect to both principal and interest, by a first charge upon the entire revenues derived and to be derived by the Chinese Government, from the Chinese Tobacco and Wine Public Sales Tax, with the declaration by the Chinese Government that said tax will net it, during the year 1916, \$11,680,000 (Chinese currency), or the equivalent of about \$5,840,000 gold and that during each of the years that all or any part of this loan, principal or interest, is unpaid, said tax will amount to a sum equivalent to at least \$5,000,000 gold.

The Chinese Government declares that said loan is needed by the Chinese Government for industrial purposes including the internal development of China, the strengthening of the reserves of the Bank of China and the Bank of Communications (both of which are official banks) and other similar purposes.

The subject matter of this loan has been submitted to the Secretary of State of the United States of America, and is referred to by him in a letter dated November 16, 1916, as follows:

"I have read the contract between yourselves and the Republic of China with reference to a loan of \$5,000,000 for a period of three years, and I have to say in reply to your oral request for a statement of the policy of this Department respecting such loans, that the Department of State is always gratified to see the Republic of China receive financial assistance from the citizens of the United States, and that it is the policy of the Department now, as in the past, to give all proper diplomatic support and protection to the legitimate enterprises abroad of American citizens."

The Government of China states that the population of China is about 400,000,000, and its total external and internal debt, as of December 31, 1915, but including this loan amounts approximately to the equivalent of \$680,000,000 gold, or a debt equal to \$1.70 per capita. The Government states that throughout the history of China, including the Empire, there has never been a default in the payment of interest or principal of any part of the national debt.

All legal matters in connection with this loan, including the contract with the Republic and the form of the notes, have been approved by Messrs. Mayer, Meyer, Austrian & Platt, of Chicago.
